

SBIR & GLOBAL TRADE SUMMIT

JULY 24-26, 2012

THREE DAYS OF GROWTH OPPORTUNITY

REGISTER

SBIR & GLOBAL TRADE SUMMIT
July 24-26, 2012

Mohegan Sun
1 Mohegan Sun Blvd.
Uncasville, CT 06382

Meet the following confirmed attendees searching for small and medium sized manufacturers, tech-businesses, and many other partners just like YOU!

On behalf of the Northeast Electrochemical Energy Storage Cluster (NEESC) two workshops will include the following:

Opportunities for the Clean Energy Sector: Hydrogen and Fuel Cells

During this one hour interactive session, representatives from the Department of Energy and the Department of Defense will discuss research topics that pertain to clean energy with a focus on hydrogen and fuel cell technology. Come and learn what these agencies are looking for small businesses/entrepreneurs to research and possibly develop, and be available to provide valuable feedback to these agencies on concepts that could be developed into research topics. This session is a must for small businesses/entrepreneurs in the clean energy sector.

Clean Energy Opportunities in Germany

During this one hour interactive session, you will learn about opportunities in the clean energy sector from experts in Germany who will discuss target markets and relevant opportunities for hydrogen and fuel cell technology in Germany, while providing an overview of opportunities in Europe. This web-enabled video conference will provide an opportunity to gain valuable insight into this market, both near term and long term.

Connecticut small businesses receive a reimbursement for between \$450 and \$495 of the registration fee from the SBA's STEP program.
